## PRESS RELEASE

**25.10.2010**

### **(Press Release against Laskar e Toyeba)**

KPSS has taken a strong note of the suggestion given by the Laskar-e-Toyeba, to the minorities of the Valley, about the pros and cons of US President's visit to India. As we believe that LeT are the killers of the Kashmiri Society and have always killed the innocent people of Kashmir for their masters across the boarder.

KPSS believe that the so-called advice given by LeT to the minorities of the Valley is an indirect threatening from the organization.

KPSS suggest LeT to abstain from giving any suggestions to any one as they are the main group reason to which India and Pakistan fail to come on any conclusions about the Kashmir dispute.

KPSS strongly feel that LeT is one of the organization who are responsible of blood shed of the innocents and especially from the minority community, which is evident from the Wandhama Massacre that was executed by the LeT men during the intervening night of 25-26 January, 1998.

KPSS and all the minorities have full faith in the masses in general and our neighbours in particular. We Kashmiri believe in unity against all the foreigners who are constantly trying to destroy our existence; goodwill of co-existence, tolerance and love for each other.

KPSS appeals to the masses to be vigilant especially minorities living in the valley and appeals them not to open their doors between dusk to dawn, who so ever it may be, and if they feel that something fishy around them, they should beat their roof top to signal their neighbours that something untoward is going to happen.
